

Microconnect POEINJ-15W-UK PoE adapter 10 Gigabit Ethernet 48 V

Model: POEINJ-15W-UK

Manufacturer: MICRO CONNECT

EAN: 5706998795199

Product Code: 1258071

R1,407

100-220V, 50-60HZ, 48V DC, Maximum speed rate: 1000Mbps, Transmission distance: 100m

The POEINJ-15W is a single-port Gigabit PoE (Power over Ethernet) device with two RJ45 ports, one port for the Ethernet data input,

another port for the integrated data and power supply output. Since the power supply itself does not have the data switch function,

it needs to work together with a Network switch. It mixes the data of the network switch with the power supply, and transmits the

data and the power supply to the remote powered terminal through the network cable. This can solve the layout restrictions due to

the engineering power line. The device can provide PoE power supply to those Ethernet devices conforming to the IEEE802.3af

international standard, such as routers, switches, wireless APs, VoIP phones, industrial network

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

terminals, and network cameras etc. It provides efficient engineering solutions for locations where power is not available at the remote end or where the use of Ethernet cable power increase system reliability and simplify equipment installation.
