Lepro PG1-2 16W 800lm Garden Light

The Lepro PG1-2 garden lamp is a versatile outdoor lighting fixture with a power rating of 16 W and a luminous flux of 800 lm, allowing you to effectively highlight the appearance of your garden, paths, facade, or relaxation areas. The fixture offers the option to use preset lighting scenes or create your own settings, making it easy to tailor the atmosphere to any occasion. Its well-thought-out design allows for installation on a wall or in the ground, providing great freedom in arranging your space.

Two Installation Methods for Greater Flexibility

The Lepro PG1-2 can be mounted directly on a wall as a fixed spot light or installed in the ground using a spike. This solution makes it easy to adapt the installation method to a specific location and the user's needs. As a result, the light is ideal for illuminating building facades as well as highlighting plants, paths, or small garden features.

Lighting Scenes for Every Occasion

The device allows you to choose from preset lighting scenes or create your own compositions. This feature makes it easy to change the character of a space depending on the occasion—from calm, mood-setting garden lighting to more dramatic lighting arrangements. The ability to use different light colors allows the lamp to create attractive visual effects along fences, paths, and around recreational areas.

Weather Resistance

The IP65 protection rating ensures effective protection against water and adverse weather conditions. The lamp is designed for outdoor use and remains reliable even during rainfall. As a result, it can be used year-round to illuminate a garden, patio, or the area around the house without worrying about moisture affecting its performance.
