

# GameSir T7 Pro Xbox/PC Controller

Model: T7 Pro W Floral

Manufacturer: GAMESIR

EAN: 6936685223035

Product Code: 1258753

## R1,897

### GameSir T7 Pro Xbox/PC Controller

The GameSir T7 Pro Floral is a wired controller designed for gamers using Xbox Series X|S, Xbox One, Windows 10/11 PCs, and the Steam platform. The model stands out with its floral design, RGB backlighting, and ergonomic construction that fits comfortably in your hands even during long gaming sessions. The controller is equipped with drift-resistant Hall Effect sticks, analog Hall Effect triggers with a 2-stage lock, and two additional buttons on the back of the housing. A stable wired connection is provided by a detachable 3-meter USB-C cable, and full customization of settings is enabled by the GameSir Nexus app.

### Hall Effect sticks and triggers for greater precision

The controller utilizes Hall Effect technology in both the analog sticks and triggers, making movements more precise and smooth. This solution reduces the risk of drift, which often occurs in classic controllers after prolonged use. Triggers with a 2-stage lock allow you to adjust their behavior

to the type of game, which works especially well in dynamic shooters and racing games. This results in faster reactions and more predictable controls during intense gameplay.

## **Comfort During Long Gaming Sessions**

The GameSir T7 Pro Floral is designed to fit comfortably in your hand and ensure comfort even during hours-long sessions. Textured grips with a laser-etched finish improve grip and prevent the controller from slipping in your hands. Its light weight of 217 grams ensures the device doesn't strain your wrists during daily use. An added bonus are the four vibration motors located in the grips and triggers, which enhance immersion and let you feel the game's action more vividly.

## **Additional features for more demanding gamers**

The controller features two rear buttons that can be used to perform selected actions more quickly without taking your fingers off the analog sticks. This is a practical solution, especially during multiplayer games where quick reactions and comfortable controls are essential. The built-in 3.5 mm audio jack allows you to connect headphones directly to the controller, which facilitates communication with your team and improves your gaming experience. The RGB backlighting further emphasizes the device's modern design and complements the floral pattern on the casing.

## **Stable connection and broad compatibility**

The wired connection via a detachable 3-meter USB-C cable ensures a stable signal without lag or the need to charge the battery. This solution works particularly well during online gameplay, where quick reactions and reliable performance matter. The controller is compatible with Xbox Series X|S, Xbox One, and computers running Windows 10/11 and the Steam platform, allowing it to be used on a variety of devices. The ability to configure settings in the GameSir Nexus app lets you customize the behavior of buttons, triggers, and other functions to suit your own playstyle.

## **Included**

- GameSir T7 Pro Floral controller
- 3 m USB-C cable
- User manual
