

InLine Power Extension Cable Type F angled, white, 15m

Model: 16451T

Manufacturer: INLINE

EAN: 4043718313150

Product Code: 1275710

R1,791

Space-saving installation: The angled safety plug allows for flexible installation even in confined spaces.

Reliable power supply: The high-quality H05VV-F3G1.5mm² cable ensures stable performance at 230V input voltage.

Increased touch protection: The integrated protective function minimizes the risk of accidental contact during installation and operation.

Robust design for continuous use: The solid workmanship is ideal for workshops, industrial or technical environments.

Tested safety: The product is GS-certified and meets high safety standards in daily use.

The InLine® power extension cable with angled safety plug is the reliable solution for power applications in demanding environments. Thanks to the compact, angled plug, the cable is ideal for use in confined spaces, such as behind cabinets, in server cabinets, or in hard-to-reach places in technical installations.

The H05VV-F3G1.5mm² cable used offers stable transmission at 230V and impresses with its robust construction. The increased touch protection ensures additional safety – a decisive advantage in applications where operational safety and protection are paramount.

Cable type:H05VV-F3G1.5mm²

Input voltage:230V

Plug: Protective contact, angled

Socket: Protective contact

Protection: With increased touch protection

Certification:GS-tested
