

COUGAR Mini Tower Case, FV150 ARGB, White

Model: CGR-2QA6W-RGB

Manufacturer: COUGAR

EAN: 4711649770303

Product Code: 1276335

R2,018

Maximum Build Visibility, Compact Form.

The dual-chamber design of the FV150 mini RGB aligns aesthetics with functionality: the glass panels of one chamber are perfect for a clean view of your build while cables, storage and PSU are discreetly hidden in a second chamber. A bottom fan bracket lets you secure fans to the bracket prior to installation, allowing for a completely stress-free setup. GPU and ATX motherboard compatibility offers unlimited flexibility for multiple build configurations.

Compact Dual Chamber Aesthetics

The FV150 Mini RGB's small form factor lets you display your build while occupying only minimal space. Show off your components in the primary glass chamber while concealing hardware within the secondary chamber for a cleaner look.

Cooling Capacity

Keep your components performing at optimal temperatures even under high load. The FV150 Mini

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

RGB has a capacity of 3 x 120mm or 2x140mm on the top and bottom, 2x120mm or 2x140mm fans on the side, and 1 x120mm on the rear. Water cooling support maxes out at 360mm on top and 240mm on the side.

Versatile GPU options

With up to 400mm GPU clearance the FV150 Mini RGB fully accommodates high-performance components for modern gaming despite its diminutive form factor.

Reverse Motherboard Compatibility

The FV150 Mini RGB supports reverse connector motherboards for the cleanest-looking build yet. It's also compatible with Mini-ITX and Micro-ATX motherboards, offering flexibility for various build configurations.

Peripheral Vision

The FV150 Mini RGB's I/O panel includes USB 3.2 Gen 2 Type-C (10Gbps) x 1 and USB-A 3.0 (5Gbps) x 2 ports.

Full House

The FV150 Mini RGB can house up to 1 x 3.5" HDD and 1 x 2.5" SSD drives or 2 x 2.5" SSD drives.

Protection Detail

Dust covers on the top and bottom effectively prevent dust from entering, keeping your components clean. The top side filter attaches magnetically, facilitating easy removal and maintenance.
