With 8.3 mega pixels utilizing 4K UHD Laser technology, LG CineBeam delivers precisive details up to 120-inch screen. With 2M:1 contrast ratio it can express the deep darkness and brightness.

Just a Span for Overwhelmingly Large Screen

LG CineBeam gives vivid imagery within a remarkably short throw distance (0.19 Throw Ratio*). Create an impressive home cinema screen up to 120 inches.

Designed for Harmonic Interior

By applying a premium material from Kvadrat Re-wool which is crafted using 45% recycled wool, its environmentally friendly textile seamlessly blends in your home interior.

Iris Mode

Depending on lighting condition of viewing environment, you can change iris mode.

Adaptive Contrast

Adaptive Contrast gives more depth to your image by adaptively adjusting the Laser output to image, in order to create a high contrast ratio. Bright scenes appear brighter, while dark scenes remain detailed with deep blacks and shade detail.

The Smart Way to Access Content

With webOS 6.0, you can explore a variety of TV shows and movies with a simple connect to your Wi-Fi network. Also, you can enjoy video contents with built-in apps like Netflix, Amazon Prime Video, Disney+, YouTube and Apple TV.

Variety of Connectivity with Various Devices

With 3 HDMI ports, 2 USB ports, Optical Digital Audio OUT, and a LAN port, HU915QE supports stable interfaces.
