

MOES WCM-S24-S 4MP Wi-Fi IP Camera

Model: WCM-S24-S-MS

Manufacturer: MOES

EAN: 6974246470573

Product Code: 1279188

R1,958

MOES WCM-S24-S 4MP Wi-Fi IP Camera

The MOES WCM-S24-S is an outdoor 4MP IP camera that combines surveillance capabilities with built-in lighting, ensuring both security and illumination of the monitored area. The device is equipped with a 5200 mAh battery and supports solar and USB-C charging, allowing for continuous operation for up to 4-5 days without recharging. Support for the MOES, Tuya Smart, and Smart Life apps enables remote management, live video viewing, and real-time configuration of settings.

Flexible power supply and energy-efficient operation

The camera offers several power options—via the USB-C port or using a solar panel—providing greater independence and convenience. The built-in 5200 mAh battery guarantees long operating time, and optimized power consumption reduces the need for frequent charging. This makes the device ideal for locations without constant access to a power source.

Clear image and smart operating modes

The WCM-S24-S model allows you to switch between 4 MP HD mode and SD mode, helping you manage data and storage usage. The camera offers color night vision and infrared modes, and the smart mode automatically adjusts its operation to lighting conditions. This ensures the image remains clear both day and night.

Precise motion detection and alarm system

The camera is equipped with motion detection featuring human silhouette filtering, which helps reduce false alarms. When activity is detected, the device can trigger an audible alert and start video recording. Users can set the recording duration, detection sensitivity, and alarm intervals, as well as designate a specific monitoring area.

Remote communication and smart home integration

The built-in microphone and speaker enable real-time conversations via the app. The camera can also be part of automation scenarios—for example, upon detecting motion, it can trigger other devices in the Tuya system. Bluetooth support simplifies the pairing process, and remote access allows you to manage the device from anywhere.

Secure data storage and durable construction

The camera supports H.264 and H.265 compression, which reduces storage consumption by up to 50%. Recordings can be saved locally to a TF card or in the cloud (paid service). The IP65-rated housing protects the device from rain and dust, and the ability to manually adjust the angle (108.4° vertical / 58.1° horizontal) allows you to customize the setup to the installation location.

Included

- camera
- USB cable
- mounting bracket
- screws

Manufacturer	Moes
Model	WCM-S24-S
Lens focal length	2.8 mm
Aperture	F2.0
Wireless standard	IEEE 802.11 b/g/n
Wi-Fi encryption protocol	WPA-PSK / WPA2-PSK, WPA / WPA2, WEP
Operating temperature	-10°C ~ 50°C
Operating humidity	20% ~ 85% RH
Product dimensions	64 × 62 × 90 mm (camera) 47.8 × 47.8 × 77 mm (mount)
Weight	245 g
Power cord length	1.5 m
Battery capacity	5200 mAh
Frequency band	2.412 GHz ~ 2.474 GHz

Maximum RF transmission power +17 dBm
