Sunnylife carrying case for DJI Avata 2

The Sunnylife AQX-14 carrying case is an ideal solution for DJI Avata 2 owners. It provides a convenient way to transport and store the drone along with accessories, such as the controller, goggles and batteries, for example. It also allows you to take care of the safety of your equipment - it will effectively protect it from moisture, shocks or impacts.

Reliable protection

The case offers appropriately arranged compartments that provide stability and security for your drone and the accessories intended for it. Moreover, the product will effectively protect your equipment from shocks, impacts and temperatures. Don't be afraid of damaging it! In addition, the soft sponge inside the case prevents scratches, taking care of the drone's intact condition.

Waterproof construction and durable closure

The AQX-14 is also designed to protect your equipment from moisture. The airtight design effectively prevents water from entering its interior. You no longer have to worry about your drone getting wet and damaged! In addition, the reinforced closure and 304 stainless steel axle provide additional protection and resistance to wear and tear, so the case retains its functionality for a long time.

Exceptional durability

The Sunnyslife AQX-14 case is an investment in the safety of your equipment. Thanks to its sturdy materials and careful workmanship, it is extremely resistant to wear and tear, making it ideal for everyday use as well as travel. Its additional advantage is the stiffener placed on the bottom, which further increases its strength and allows you to set it stably on any surface.
