Model: PU759B

Manufacturer: PULUZ

EAN: 5905156106291

Product Code: 1279475

R2,091

Metal Protective Case for the Insta360 X5

The Puluz metal case for the Insta360 X5 is made of CNC-machined aircraft-grade aluminum, combining low weight with high durability for everyday use. The design is precisely tailored to the camera, so it does not obstruct the buttons, USB-C port, microphones, or battery compartment. The case measures $14.7 \times 6.0 \times 2.2$ cm, keeping the setup compact and allowing for comfortable use of the camera while recording on the go. The metal frame protects the camera body from scratches and impacts, while the included silicone cover protects the lenses.

Convenient camera use and quick installation

The camera mounts from the top, so installing the case takes only a moment and requires no tools. The design fits the Insta360 X5 perfectly, ensuring the device is securely held in place during recording. The case ensures a rigid and stable mount for the camera in holders, eliminating the risk of the device accidentally coming loose while driving, walking, or recording dynamic shots. The open design also allows you to freely use all camera functions without having to remove the frame.

Additional accessory mounts

Two cold shoe mounts are located on the top and side of the housing, allowing you to attach additional accessories such as a microphone or LED light. This makes it easy to expand your setup for vlogging or outdoor recording without the need for additional adapters. The built-in microphone ports are equipped with foam inserts that reduce wind noise, improving audio quality when recording outdoors. The design also maintains convenient access to the camera’s buttons and ports.

Included

- Puluz metal housing for Insta360 X5
- Silicone lens cover
- Sound-absorbing foam for microphones x 6

Manufacturer	Puluz
Model	PU759B
