Puluz SmartLink WS300 Lavalier Microphone

The PULUZ SmartLink WS300 is a wireless lavalier microphone system ideal for recording vlogs, interviews, live streams, and social media content. The system utilizes stable 2.4G transmission and supports recording at up to 48K quality, ensuring clear and natural sound even in challenging conditions. Intelligent noise reduction effectively eliminates ambient noise, and a low latency of just 15 ms ensures perfect audio-video synchronization. A transmission range of up to 20 meters gives you greater freedom while recording, without the need for cables.

Clear sound and convenient operation in any conditions

The kit includes two transmitters and one USB-C receiver, allowing you to conveniently record conversations, podcasts, or content featuring two people. Omnidirectional microphones precisely capture voices, and the original sound mode preserves the natural tone of your recordings. The microphone offers a frequency response of 20 Hz – 20 kHz and a signal-to-noise ratio of 72 dB,

resulting in clear and detailed audio. An additional advantage is the ability to play background audio or music via Bluetooth and support for two-way monitoring.

Long battery life and a practical case with a display

The transmitters are equipped with 130 mAh rechargeable batteries, which provide up to 5-6 hours of continuous operation on a single charge. The set also includes a compact charging case with a 700 mAh battery and a digital power level display ranging from 0 to 100, which makes it easy to monitor the charge status. The entire unit is made of durable ABS plastic, and its compact size and magnetic attachment make the microphones convenient for everyday use and easy to clip onto clothing.

Included

- Wireless microphone x1
- Transmitter x2
- USB-C receiver x1
- Clip x2
- Charging case x1
- Charging cable x1
- Storage pouch x1
- User manual x1
- Colorful packaging x1

Manufacturer	PULUZ
Model	SmartLink WS300
Color	Black
Material	ABS
Channel system	2 transmitters + 1 receiver
Transmission type	2.4G
Operating frequency	2.4G-2.4835GHz

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Modulation format	GFSK
Transmission range	Up to 20 m
Latency	15 ms
Frequency response	20Hz-20KHz
Signal-to-noise ratio	72 dB
Maximum gain	126 dB
Radio sensitivity	-38 dB $\pm$ 1 dB
Monitoring	Two-way
Transmitter battery capacity	130 mAh
Operating time	5–6 hours
Standby time	Up to 6 months
Charging case capacity	700 mAh
Microphone charging time	1.5 hours
Charging case charging time	2–3 hours
Charging port	USB-C
Power indicator	Digital LED display
