easier to perform everyday tasks without the need for additional control devices.

One Cable, Multiple Connection Options

With support for a single USB Type-C cable, the monitor allows you to quickly enable extended desktop mode, a second screen, or screen mirroring without complicated setup. Users have access to two Type-C ports that simultaneously support video and power, a Mini HDMI connector, and a 3.5 mm audio output. The monitor also supports reverse charging for connected devices, such as smartphones or laptops, and can be powered using a USB power adapter or a power bank. The manufacturer recommends using a PD power adapter with a minimum output of 30 W.

A larger screen for your smartphone and many other devices

The ANMITE model works with a wide range of devices. When a compatible smartphone is connected via USB Type-C, it can function as a large screen, supporting desktop mode, including Huawei EMUI PC and Samsung DeX, along with an external keyboard and mouse. The monitor is also compatible with desktop computers, laptops, PS3, PS4, and PS5 consoles, Xbox One, and Nintendo Switch, as well as set-top boxes, cameras, microscopes, CCTV systems, MINI PCs, and Raspberry Pi. The Nintendo Switch can be connected directly, without the need for a docking station, while simultaneously powering the console via the reverse charging feature.

Comfort for Work, Study, and Entertainment

The monitor is ideal for office work, design, watching movies, and gaming. The screen extension feature expands your workspace and makes it easier to work with multiple applications simultaneously. Built-in stereo speakers deliver rich, clear, and balanced sound, eliminating the need for additional speakers during everyday use.

Slim, mount-ready design

The ABS plastic housing features a thin bezel, a flat back, and a lightweight design. The monitor measures 35.5 × 22.2 × 1.2 cm, so it fits easily into a bag or backpack. An additional advantage is its compatibility with the VESA 75 × 75 mm standard, which allows for mounting on a wall or a compatible mount.
