Stunning Contrast from Production to Post

Designed for content creators, the ProArt Display OLED PA27USD is a professional monitor that features a cutting-edge 26.5-inch 4K HDR QD-OLED panel with 1000-nits brightness and 99% DCI-P3 coverage to deliver highly-accurate colors and exceptional visual detail. A built-in motorized flip colorimeter enables auto- and self-calibration for consistent, professional-grade color accuracy, and a 240Hz refresh rate allows creators to work on color-critical artwork as well as performance-driven game development — all on one monitor. In addition to the standard I/O interfaces, the PA27USD supports 12G-SDI connectivity to receive uncompressed video signals up to 4K@60Hz.
