

Conceptronic ABBY26B WiFi6 AX900 Dual Band Wireless USB Bluetooth Adapter

Model: ABBY26B

Manufacturer: CONCEPTRONIC

EAN: 4015867244098

Product Code: 1283989

R1,027

The WiFi 6 AX900 Dual Band Wireless USB Bluetooth Adapter delivers a powerful connectivity upgrade for your desktop or laptop, combining cutting-edge WiFi 6 technology with the latest Bluetooth 5.3 in a single compact device. With combined wireless speeds of up to 900Mbps across dual bands (286Mbps on 2.4GHz and 601Mbps on 5GHz), this adapter ensures smooth streaming, lag-free gaming, and responsive web browsing. The dual-band capability intelligently balances network traffic to minimize interference and reduce latency.

Beyond WiFi performance, the integrated Bluetooth 5.3 functionality provides stable, energy-efficient connections to your wireless peripherals. With support for pairing up to 5 devices simultaneously, you can maintain connections to all your essential accessories without constant re-pairing. The

adapter offers extensive compatibility, working seamlessly with legacy WiFi standards and Bluetooth

versions dating back to 2.1.

Installation is refreshingly simple with CD-free Plug & Play setup. Just connect the adapter and you're ready to go on Windows 7, 10, or 11 for WiFi, with instant Bluetooth connectivity on Windows 10 and 11.

Whether upgrading an older computer or enhancing your current setup, this versatile adapter provides a convenient, all-in-one solution for modern wireless connectivity needs.
