

Conceptronic EMRICK15B High-Definition Sound PCIe Card, 7.1CH

Model: EMRICK15B

Manufacturer: CONCEPTRONIC

EAN: 4015867244630

Product Code: 1285101

R1,988

The EMRICK15B High-Definition Sound PCIe Card is designed to upgrade your desktop PC with immersive and high-quality audio performance. Supporting 7.1-channel surround sound, it enhances your experience when enjoying games, movies, and music. The PCI Express interface ensures fast and stable connectivity, delivering reliable audio performance compared to standard onboard sound solutions.

With support for high-resolution audio up to 24-bit / 192 kHz, this sound card provides clear and detailed sound reproduction with excellent dynamic range. The integrated S/PDIF digital output allows convenient connection to external audio systems, amplifiers, or home theater equipment for flexible audio configurations.

Powered by the CM6212 chipset and featuring ASIO driver support for low-latency audio processing,
