

Zalman CNPS4X BLACK V2 computer cooling system Processor Fan 9.2 cm 1 pc(s)

Model: CNPS4X BLACK V2

Manufacturer: ZALMAN

EAN: 8800263650477

Product Code: 1286700

R1,151

Optimized for powerful cooling performance

Three high-performance heatpipes featuring ZALMAN's unique technology transfer the heat quickly from the CPU to the heat sink and a 92mm fan with up to 2,000 RPM and PWM function that automatically detects changes in processor temperature provides a quieter environment than any other product.

Aluminum heat sink designed for precise and efficient airflow

CNPS 4X Black comes with a high quality aluminum heat sink is designed to precisely maximize the air flow and to transfer heat quickly with it's optimally organized space.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Electrophoretic coating Process

Uniform thickness Reduced defects High stability

Special black coating provides optimal heat transfer with electrophoresis.

Maximizing heat transfer through DTH(Direct Touch Heatpipe) technology

Three precisely crafted copper heatpipes firmly contact the CPU are absorbing heat evenly and dissipating quickly.

92mm high-performance fan with PWM function

Applied 92mm high-performance fan achieves maximum cooling performance with ultra-quiet noise and supports PWM function that automatically adjusts fan speed based on CPU temperature.

Variety of PC case compatibility provide great install experience

CNPS 4X Black V2 is designed with the optimal height of 135mm to be hassle-free during installation even in the narrow PC case.
