R1,897

Freewell Insta360 Luna Ultra Everyday Filter Set (4-Piece)

Create atmospheric shots regardless of lighting conditions with the Freewell Everyday Creative Filter Set for the Insta360 Luna Ultra camera. The set includes four carefully selected filters—ND1000, CPL, Glow Mist 1/4, and LPR—that open up new possibilities for both photography and video recording. They let you capture stunning long exposures, reduce unwanted reflections, give your footage a cinematic look, and take clearer photos of the night sky. It's the perfect choice for creators who want to consciously shape the look of their content.

More creativity in every scene

Each filter in the set has been designed with specific applications in mind. The ND1000 filter enables you to take stunning long-exposure photos, while the CPL filter reduces glare and enhances color saturation, emphasizing, among other things, the blue of the sky and the contrast in landscapes. The Glow Mist 1/4 gently diffuses light, creating a subtle, cinematic glow effect around bright spots, while the LPR filter minimizes the impact of light pollution, making it easier to photograph stars and nightscapes. Together, they form a versatile set that's perfect for travel, street photography, and night shoots.

Designed for the Insta360 Luna Ultra

The filters have been precisely tailored to the Insta360 Luna Ultra camera, allowing them to attach quickly and securely to the gimbal, so you can get your gear ready in an instant. Their lightweight design does not affect the camera's balance, which is particularly important during dynamic shots and smooth subject tracking. This is a practical accessory for anyone who expects professional results without compromising on ease of use.

Manufacturer	Freewell
Model	FW-LNUB-EDY
Compatibility	Insta360 Luna Ultra
Number of filters included 4	
Filter types	ND1000, CPL, Glow Mist 1/4, LPR
