R3,152

The DICOTA FIVE notebook carrying backpack combines functionality and sustainability, designed to accommodate up to a 16-inch notebook. Crafted from recycled plastic bottles, this eco-friendly backpack features a padded compartment, ensuring the safety and comfort of your device during transport. With breathable back padding and an ergonomic design, users can carry it with ease throughout the day. This backpack includes multiple compartments for organization, such as accessory pockets, a side pocket, and an RFID protected pocket for secure storage of personal items. The backpack also has a trolley strap, shoulder straps, and a top carry handle for versatility in carrying preferences. Lockable zippers with a ring lock provide added security while on the go, making the DICOTA FIVE a choice for professionals and students alike.
