

PXN sequential gearbox

Model: SF SMG

Manufacturer: PXN

EAN: 6948052903785

Product Code: 1291974

R3,814

PXN Sequential Transmission

The PXN SF SMG is a sequential gearbox created for simulator fans who want maximum immersion and precise control. Robust metal construction and an ergonomic stick provide strength and a stable grip, while compatibility with PXN bases and PCs guarantees versatile use in racing and simulation games.

Smooth and precise gear shifting

The gearbox uses a sequential mechanism, which allows you to switch gear ratios instantly - just one push of the stick up or down. This makes every maneuver fast, smooth and natural, increasing driving realism and improving performance on the track.

Robust construction for long life

A housing made of sturdy materials and a stable base ensure reliability even under heavy use. With metal components and a high-quality finish, the PXN SF SMG will meet the demands of both amateur and professional simulation enthusiasts.

Easy installation and wide compatibility

You will connect the device quickly thanks to the USB-C interface. The gearbox works with Windows 7/8/10/11 PCs and PXN steering wheel bases, allowing you to easily incorporate it into your existing setup.

Included:

- PXN SF SMG gearbox
- Gear shift knob (mounted separately)
- USB-C to USB-A cable
- USB-C to USB-C cable
- RJ11 to RJ11 cable
- Mounting screw set (M6 + TM6x15)
- Allen wrench and wrench
- User manual

Manufacturer	PXN
Model	SF SMG
Connection method	Wired
USB power supply	5 V
Current consumption	Max. 50 mA
Product dimensions	Approx. 195 × 52 × 325 mm
Weight	Approx. 1050 g
Operating temperature	From 10 to 40°C
Operating humidity	From 20 to 80%

Compatible platforms PC (Windows 7/8/10/11), PXN bases
