

PXN-H BS Hand Brake

Model: PXN-H BS

Manufacturer: PXN

EAN: 6948052902610

Product Code: 1293053

R2,342

PXN-H BS Handbrake

Precise control and a realistic driving experience at your fingertips. The PXN-H BS handbrake is equipped with a high-precision 16-bit sensor that ensures accurate and smooth reproduction of every movement. The sturdy aluminum construction and compact dimensions (approx. 313 × 178 × 46 mm) make the device durable yet easy to install. Furthermore, USB power delivery ensures stable, lag-free performance, and the plug-and-play system speeds up the connection process.

Aluminum Construction and Durability

The mouse features a reinforced construction, allowing it to withstand heavy use and long gaming sessions. The use of an aluminum alloy ensures high resistance to pressure and wear. Additionally, this material offers low susceptibility to corrosion, contributing to the device's long lifespan and helping it maintain its aesthetic appearance over time.

Precision sensor

The built-in 16-bit magnetic encoder ensures accurate and stable signal transmission. The contactless design enhances smooth operation and reduces mechanical wear, resulting in greater durability and repeatability of every movement. This gives you full control over braking in dynamic track situations!

Adjustability

The replaceable spring and damping system allows you to adjust the resistance and response speed. This solution makes the device better mimic natural hand movement and increases comfort of use. Thanks to this, you can easily adjust the brake's performance to your own preferences!

Two operating modes - vertical and horizontal

The PXN-HB S offers the option to operate in vertical or horizontal mode. The vertical setting provides an experience similar to that of rally cars, while the horizontal setting resembles classic solutions used in road cars. Adjust the configuration to your favorite driving style and game type!

Simple installation and wide compatibility

The brake uses a USB interface and operates in plug-and-play mode, meaning quick connection without the need to install drivers. It is compatible with Windows 7, 8, 10, and 11, and works seamlessly with popular games such as Assetto Corsa, Need for Speed, Euro Truck Simulator 2, and Forza Horizon 5. Additionally, the dedicated PXN software allows you to configure functions and assign buttons according to your needs.

Included

- Handbrake x1
- Mounting bracket x1
- Spring x1
- Silencer x1
- USB-B cable x1
- Flathead screwdriver x2
- M3 Allen key x1

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

- M5 Allen screws x4
- M5 Allen wrench x1

Manufacturer	PXN
Model	PXN HB S
Material	Aluminum alloy

Mounting holes M5 screws

Connection type Wired

Operating voltage USB power supply: 5 V

Operating current USB operating current: 50 mA

Weight Approx. 900 g

Dimensions Approx. 313 × 178 × 46 mm

Compatibility Windows 7/8/10/11

Net weight: 1180, Box width: 26,50, Box height: 7,50, Box length: 28,00, Gross weight: 1290
