PXN-008 Arcade Stick

Experience the atmosphere of classic arcade machines and immerse yourself in the world of dynamic fighting games with the PXN-008 arcade stick. The device features a precise 360° joystick, a TURBO function, and Blue Switch mechanical switches that ensure fast response times and a crisp, satisfying click. With support for up to 5 platforms (PC, Xbox ONE/Series, PlayStation 3/4, Nintendo Switch, and Android devices) and a simple USB connection, you can start playing on your chosen device almost immediately. Add to that a compact design measuring 335 × 230 × 108 mm and a 3.5 mm audio jack.

Classic 360° joystick - full motion control

The full 360° joystick ensures smooth and precise control without lag. The design is engineered to offer stability and accuracy of movement, which is crucial in games that require quick reflexes. This mechanism translates to natural character control and better handling during dynamic action sequences.

Mechanical buttons with Blue Switch switches

The use of mechanical Blue Switch switches guarantees fast and distinct responses to every press. An actuation point of 2 mm allows for lightning-fast movements, and the light actuation force (approximately 70 g) ensures comfort even during long gaming sessions. Furthermore, the buttons' durability of up to 50 million clicks means the device will easily withstand intensive use.

TURBO function and advanced settings

The built-in TURBO function allows you to perform fast, repetitive actions with a single button, making gameplay in demanding titles easier. Now you can defeat your opponents with ease! Additionally, the DP/LS switch lets you toggle between D-pad and left joystick modes, so you can customize the controls to suit your preferences and playstyle.

Wide compatibility and easy connection

The PXN-008 supports multiple platforms, including PC, PlayStation 3, PlayStation 4, Xbox One, Xbox Series, Nintendo Switch, and Android devices. The USB-A connection ensures stable signal transmission and allows you to start playing quickly. Additionally, the approximately 2000 mm cable length provides greater freedom in setting up your setup. The arcade stick is also compatible with many popular games, such as Street Fighter, Mortal Kombat X, Tekken 7, and Persona 4.

Robust construction and practical details

The ABS plastic panel is resistant to wear, moisture, and fading, ensuring long-lasting use. The device also features a 3.5 mm audio jack, allowing you to connect headphones, for example. In turn, its compact dimensions (335 × 230 × 108 mm) ensure that the arcade stick fits easily even on a small desk.

Manufacturer	PXN
Model	PXN-008
