Dell Pro 27 Monitor E2726H

Dell Pro 27 Monitor E2726H is a cost-effective, large-format business monitor for everyday office and remote work. The 27-inch Full HD IPS panel provides plenty of screen space, natural colours and wide 178-degree viewing angles.

The 120 Hz refresh rate makes scrolling and on-screen movement smoother. A flicker-free image, integrated Low Blue Light technology and a 3-star TÜV Rheinland Eye Comfort 3.0 rating support comfortable viewing. The anti-glare 3H hard coating reduces distracting reflections from ambient lighting.

HDMI, DisplayPort and VGA connectivity allows the monitor to be used with both new and older computers. The removable stand provides tilt adjustment, while VESA mounting enables installation on a separate monitor arm or wall mount.
