Anycubic Heat & Pure Kit (EU) for Photon Mono M5s/M5s Pro/M3/M3 Max/X 6Ks/4

The Anycubic Air Heat & Pure (EU) Kit is a compact solution designed for Photon series resin printers, combining heating and air filtration functions to improve the device's operating conditions and user comfort. Thanks to temperature stabilization inside the printer chamber, the resin behaves more predictably, which translates to more effective prints and a lower risk of errors, especially in cooler environments. At the same time, the included activated carbon filter (not included in the set)
