

Ray Battler RB 6634 Hair Straightener

Model: RB 6634

Manufacturer: RAY BATTLER

EAN: 6430082910081

Product Code: 1296594

R1,059

The Ray Battler RB 6634 Hair Straightener is a versatile styling tool designed for both straightening and creating curls or waves. Its curved body and ceramic plate design make it suitable for multiple styling techniques, while precise temperature control helps adapt the heat to different hair types. The straightener features PTC heating technology for fast heat-up and stable temperature performance. It reaches the selected temperature in approximately 1 minute and offers 6 temperature settings from 130°C to 230°C: 130°C, 150°C, 170°C, 190°C, 210°C and 230°C. Built-in ionic technology helps reduce static and frizz for a smoother, more polished finish. The curved ceramic plates measure approximately 30 × 110 mm, providing smooth glide and good strand control during styling.

For convenient everyday use, the RB 6634 is equipped with an LED display, button lock function, 360° swivel cord and a 2 m power cord.

The straightener can also be locked in the closed position for easier storage.

Safety features include automatic shut-off after 60 minutes and a heat-resistant storage pouch.

Manufacturer: Ray Battler | Maximum temperature (C°): 230 | Temperature modes: 6 | Temperature range (T-T): 130°C – 230°C | Automatic shutdown: Yes | Surface coating: Ceramic | Swivel cord: 360°
