Magcubic HY320Pro Projector

Meet the Magcubic HY320Pro—a modern multimedia projector that turns any room into a private cinema. Equipped with Android 14, native Full HD 1080p resolution, 8K support, 400 ANSI lumens of brightness, ultra-fast Wi-Fi 6, Bluetooth 5.4, 180° projection, auto-focus, and intelligent image correction. Thanks to wireless screen mirroring from Android, iOS, and Windows devices, voice control, and an Air Mouse remote with a gyroscope, using the projector is extremely convenient. Its compact design lets you take it anywhere, and the image size of up to 135 inches delivers a truly cinematic experience.

Home theater on a big screen up to 135 inches

Forget the limitations of a traditional TV. The Magcubic HY320Pro displays an image ranging from 35 to 135 inches, allowing you to create an impressive entertainment zone even in a small room. Watch movies, TV shows, sports events, and live broadcasts on a screen that delivers far more excitement

than a standard TV. It's the perfect solution for home theater enthusiasts, family movie nights, and gaming together.

Native Full HD 1080p and 8K support - an image that delights with its detail

The native resolution of 1920 × 1080 px guarantees a clear, detailed, and natural image. Support for 8K content allows you to enjoy modern content without compatibility limitations. Combined with 400 ANSI lumens of brightness and a 2000:1 contrast ratio, the projector delivers vivid colors, deep blacks, and high image clarity, making every scene look impressive whether you're watching movies or gaming.

Smart Setup - a perfect image in seconds

The Magcubic HY320Pro is equipped with advanced automatic image calibration features. Auto Focus instantly adjusts the focus, while automatic keystone correction ensures perfect image proportions. Additionally, the screen alignment feature and intelligent obstacle avoidance allow the projector to automatically adjust the projection to the room's conditions. The result? A perfect image without manual setup or wasted time.

180° Projection - Complete Viewing Freedom

The unique design, which can rotate up to 180°, allows you to direct the image exactly where you want it. Project movies onto a wall, ceiling, or at any angle without having to move furniture or install additional mounts. It's a convenient solution that enhances user comfort and lets you create the perfect conditions for relaxation anywhere.

Android 14 - your favorite apps always at your fingertips

Thanks to the Android 14 system, the projector functions as a standalone media center. Use streaming apps, browse the web, install new programs, and manage your media without having to connect additional devices. The built-in 8 GB of storage and 1 GB of RAM ensure smooth operation of key features and quick access to entertainment.

Wireless screen mirroring from your phone, tablet, and computer

The Magcubic HY320Pro supports wireless casting for Android, iOS, and Windows systems, allowing you to instantly display photos, presentations, videos, or your smartphone screen on a large projection surface. If you need a stable wired connection, the projector also offers ports for connecting a laptop, game console, TV box, or other multimedia devices.

Wi-Fi 6 and Bluetooth 5.4 - faster, more stable, and more convenient

Modern Dual Band Wi-Fi 6 and Bluetooth 5.4 modules ensure fast data transfer, smooth streaming of online content, and a stable connection to wireless accessories. Connect headphones, speakers, controllers, or other Bluetooth devices and enjoy complete freedom of use without unnecessary cables.

Voice control and Air Mouse remote with a 6-axis gyroscope

Operating the projector is extremely intuitive thanks to the remote equipped with the Air Mouse function and a 6-axis gyroscope sensor. Control the cursor with hand gestures, quickly navigate menus, and use voice commands without having to type. This solution significantly enhances daily usability and makes navigation fast and natural.

Compact size you can take anywhere

Weighing just about 0.6 kg and with compact dimensions, the projector easily fits in a bag or backpack. It's perfect for home use, trips, get-togethers with friends, presentations, or summer evenings. Its small size goes hand in hand with great capabilities, so you can always have your own cinema at your fingertips.

Built-in speaker and wide device compatibility

The projector is equipped with a 5W speaker that delivers clear sound for everyday viewing. Wide compatibility with devices connected via HDMI, USB, and audio allows it to work with PS4 and PS5 consoles, computers, laptops, TV sticks, TV boxes, smartphones, and USB drives. Regardless of the image source, the Magcubic HY320Pro will easily become the center of your home entertainment.
