Blitzwolf BW-S31 2xUSB-A, 4xUSB-C, PD, 240W network charger

Looking for a reliable yet handy charger that can handle multiple devices at once? The Blitzwolf BW-S31 is the perfect solution - it offers up to 240 watts of total output power and 6 ports (4 × USB-C, 2 × USB-A), making it a great choice for home, office and travel. Charge your laptop, phone, tablet and console at the same time - quickly, safely and conveniently.

Fast charging

The two USB-C ports (C1 and C2) support the Power Delivery 3.1 and PPS standard, offering up to 140 watts of power - charging equipment such as the MacBook Pro 16 or other demanding devices with ease. The other ports (C3 and C4) provide 65 watts each, and the USB-A ports support QC 3.0

fast charging with up to 60 watts. You can power up to 6 devices at once without sacrificing performance.

Compatibility and security

BW-S31 supports the most popular fast charging protocols,[among others](#). PD3.1/PD3.0/PPS/QC4.0+/QC3.0/AFC/FCP/SCP, ensuring compatibility with most smartphones, laptops, tablets, consoles and other devices. Built-in protections guard against overheating, overvoltage and overload, ensuring safe charging in any situation.

Convenience and mobility

Despite its high power, the charger weighs just 335 g and measures 113 × 68 × 87 mm. The included one-meter power cord and sturdy design make it ideal for use on a desk or in a travel bag.

Included

- mains charger
- power cable
