Product Code: 1298387

R6,439

SJCAM SJ30 Action Camera

The SJCAM SJ30 lets you capture dynamic action in resolutions up to 8K at 20 fps and take detailed 48 MP photos. A dual-lens system designed for day and night recording helps ensure clear images in various lighting conditions, while SteadyMotion 2.0 reduces shake during intense movement. The camera also features automatic leveling within a 45° range, a 2.51" tilting touchscreen, voice control, and native vertical recording. The built-in 2000 mAh battery can be supplemented with a 4200 mAh battery grip (not included), providing up to 7 hours of runtime.

Record in Impressive 8K Resolution

The SJCAM SJ30 captures footage in 8K resolution at 20 fps, allowing you to preserve a wealth of detail while recording sports, travel, and other dynamic activities. The high resolution helps accurately capture the scenes you record, so you can preserve important moments in excellent quality. The camera's capabilities are complemented by the ability to take photos at up to 48 MP, allowing you to capture clear textures, details, and vivid color transitions in both landscapes and

close-ups.

Two Lenses for Day and Night

The dual-lens system allows the SJCAM SJ30 to adapt to changing lighting conditions. The day lens ensures natural color reproduction in bright light, while the Starlight night lens with an F1.8 aperture increases the amount of light captured when recording in low-light environments. As a result, the camera delivers sharp, clear footage both during the day and after dark, minimizing noise and image blur.

Stable footage even while in motion

The advanced SteadyMotion 2.0 stabilization system effectively reduces shaking and vibrations caused by dynamic activities such as biking or skiing. It also helps when recording with the camera held in your hand, ensuring smoother and more stable footage. This is complemented by a smart 45° leveling feature that helps keep the image properly leveled even when the camera tilts or rotates. This makes it easier to capture more balanced shots during activities where it's difficult to keep the camera in a single position.

Convenient Preview and Vertical Format

The 2.51" tilting touchscreen provides a convenient preview of the frame and intuitive camera control. The ability to adjust the display's position makes it easier to take selfies, record vlogs, and capture footage from various angles, while also allowing you to position the camera at the right angle more easily. The SJCAM SJ30 also supports native vertical video recording without cropping the image or losing quality, so you can immediately create videos tailored for Instagram, TikTok, or YouTube Shorts without having to crop them later.

Up to 7 hours of recording

The SJCAM SJ30 is equipped with a built-in 2000 mAh battery, which can be supplemented with a grip featuring an additional 4200 mAh battery (not included). This solution extends the operating time to up to 7 hours, which comes in handy during longer trips, bike rides, travels, or extended recording sessions. More battery life means fewer interruptions and more time to capture more

moments.

Better Audio on the Move and Outdoors

The detachable windscreen helps produce cleaner and clearer recordings when using the camera outdoors, reducing interference that's particularly noticeable at higher speeds. The SJCAM SJ30 is also compatible with the M4 wireless external microphone, which makes it easy to capture clear voice recordings while creating content on the go. Pairing is a one-click process—simply connect the receiver and start recording.

Control the Camera Hands-Free

Voice commands allow you to control the SJCAM SJ30 without having to reach for its buttons or screen. This way, you can control photo and video capture while staying focused on your current activity. This feature is especially useful in situations where manually operating the camera would be inconvenient.

Included in the set

- Camera x1
- Vertical and horizontal mounting frame x1
- Mounting screw x1
- USB cable x1
- Microphone protective cover x1
- Detachable windshield x2
- Magnetic mount x1
- Cleaning cloth x1
- Mounting adapter set x2
- 1/4"-20 tripod adapter set x2
- Curved and flat mounts x2
- 3M adhesive stickers x2
