SJCAM C110+ Action Camera

The SJCAM C110 Plus is a compact action camera that records in up to 4K resolution at 30 fps and takes photos at up to 20 MP. The 170° ultra-wide field of view allows you to capture expansive landscapes and a large portion of your surroundings, while the 6-axis gyroscope, working in conjunction with a stabilization algorithm, helps reduce shaking during dynamic activities. The camera weighs just 82 g, measures 63.9 × 30.2 × 33 mm, and its 1100 mAh battery provides up to 120 minutes of runtime when recording in 2K at 30 fps. The magnetic design further facilitates flexible and stable mounting.

Detailed 4K footage and a wide 170° field of view

The C110 Plus records in 4K at 30 fps, 2K at up to 60 fps, and 1080p and 720p at up to 120 fps, allowing you to tailor the footage settings to the nature of the scene being captured. A 9:16 vertical aspect ratio is also available in 1080p or 720p at 30 fps, which expands your creative possibilities when producing various types of content. The 170° field of view is particularly well-suited for

capturing landscapes and vlogging, allowing you to show more of the surroundings and give your recordings a wider perspective.

Image stabilization during dynamic shots

A six-axis gyroscope, combined with an improved vibration reduction algorithm, ensures image stabilization when recording on the move. The camera also offers a slow-motion mode—60 fps in 2K and up to 120 fps in 1080p and 720p—as well as time-lapse, loop, car, and portrait modes. It also features distortion correction, 8x digital zoom, ISO 100–3200, and ± 2 EV exposure compensation.

Photos up to 20 MP and a bright f/1.8 lens

The camera takes photos at resolutions up to 20 MP, and the f/1.8 lens combined with a larger sensor helps capture details even in cloudy weather. Users can choose from resolutions ranging from 2 MP to 20 MP and take advantage of standard photography, interval shots, burst mode, and time-lapse mode. Available white balance settings include, among others, auto, daylight, cloudy, tungsten, fluorescent, and underwater modes.

Flexible Mounting and Compact Design

Weighing just 82 g and measuring 63.9 × 30.2 × 33 mm, the C110 Plus is easy to take along on all kinds of activities without adding unnecessary weight. The magnetic housing ensures a stable mount and allows for flexible installation—on a helmet, handlebars, or bike frame, among other places—enabling you to experiment with different perspectives. When mounted on a bike frame and the activation button is pressed, the camera can also function as a taillight.

App Control and Underwater Recording

The SJCAM Zone app lets you control the camera from your smartphone and share footage in real time, while customizable shortcut buttons allow you to tailor the controls to your preferences. When placed in the C110 Plus waterproof case, the camera can be used at depths of up to 30 m, allowing you to capture diving and jumps into the water, among other activities. The camera supports microSD cards up to 128 GB, records videos in MP4 format with H.264 encoding and photos in JPG, and also features a built-in microphone and speaker and can function as a webcam.

Up to 120 minutes of operation

The 1100 mAh lithium-ion battery, with a voltage of 3.8 V and an energy capacity of 4.18 Wh, provides up to 120 minutes of operation when recording in 2K resolution at 30 fps. The camera is equipped with a USB-C port, and the easy interchangeability of accessories allows you to quickly set it up for new applications. The combination of a compact design, various mounting options, and a wide range of recording modes allows you to use the C110 Plus to capture activities, travels, vlogs, and creative shots from different perspectives.

Included in the set

- SJCAM C110+ action camera
- Waterproof case
- Mounting clip
- Mounting frame
- Mounting adapter with 1/4-inch screw
- Quick-release mount with stand
- Mounting clip
- Mounting screw
- 3M double-sided adhesive pads (x2)
- Mounting bases (x2)
- Lanyard
- Microfiber lens cleaning cloth
- USB cable for charging and data transfer
- SJCAM logo stickers (2)
- User manual
