Model: CADONGLEUSBSD

Manufacturer: I-TEC

EAN: 8595611707872

Product Code: 1299024

R1,119

The i-tec USB-C / USB-A Card Reader Dongle is a practical companion for anyone who needs essential connectivity always within reach. Housed in a compact metal body, it combines SD and microSD card readers with USB-C and USB-A ports offering transfer speeds of up to 5 Gbps. Thanks to the integrated USB-C and USB-A connectors, it can be easily connected to modern notebooks, tablets and older devices without the need for additional adapters.

Protective connector caps help keep the device safe during transport, while the integrated lanyard makes it easy to attach to keys, bags or backpacks. An ideal solution for travel, mobile work and everyday use with ultrathin notebooks and devices with limited connectivity.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
