PXN gearbox- H layout 7+1

The PXN SF U gearbox in H layout (7 gears + reverse) will delight driving simulator enthusiasts who expect the maximum realistic experience. The precise gear mechanism, solid metal construction and intuitive connection to a PC or PXN base make every gear change akin to driving a real sports car.

Driving realism at its best

With up to seven gear ratios and a dedicated reverse gear, you can replicate road and rally driving with the utmost accuracy. This is ideal for drivers who want to bring their gaming experience as close as possible to real-world driving.

Stability that gives you the edge

The gearbox can be securely attached to the simracing stand using the included allen screws. The unit connects to a computer or PXN base using a USB-C cable, guaranteeing seamless installation
