R1,776

DJI Osmo Pocket 4P Black Mist Filter

The Black Mist filter for the DJI Osmo Pocket 4P helps you achieve a more cinematic look in your footage, giving your shots a subtle and natural feel. Once attached, it gently diffuses light in the brightest areas of the image and slightly reduces sharpness, creating a soft, atmospheric effect. Additionally, it helps minimize the appearance of fine lines and skin imperfections, making it ideal for shooting portraits, vlogs, and other content featuring people. The two-element optical design ensures consistent results whether using a wide-angle or medium telephoto lens, and its compact size makes it easy to take this accessory with you anywhere and always have it ready for use.
