

Anycubic PEI Plate for Kobra 3 Max/Max Combo

Model: S010305

Manufacturer: ANYCUBIC

EAN: 5905156103795

Product Code: 1300662

R1,812

Anycubic PEI Build Plate for Kobra 3 Max/Max Combo

The PEI build plate for the Anycubic Kobra 3 Max / Max Combo is a practical solution that makes daily printing easier, as its surface ensures good adhesion of models during printing while allowing for easy removal once they have cooled down. The flexible design means that you only need to bend the plate slightly to easily peel off the finished part, which reduces the risk of damage. The PEI coating works well with popular filaments, so there's no need to experiment with additional adhesives. This translates to ease of use and more consistent results, especially with larger prints, for which this series of printers was designed.
