Anycubic Quick-Change FEP Film for Photon Mono M5s/M5s Pro/M7 Pro/M7 (10.1 inches/5 sheets)

The Anycubic quick-change FEP film, with a diagonal of 10.1 inches, designed for the Photon Mono M5s, M5s Pro, M7, and M7 Pro printers, is a convenient solution that streamlines daily work with resin printing. Thanks to its quick-change design, it reduces the time needed for maintenance and device setup, allowing you to get back to printing more efficiently. The material offers good light transmission and flexibility, which ensures stable resin curing conditions and greater print precision. The set includes 5 sheets, so users have a long-term supply and don't have to worry about replacing consumables frequently.
