

MIKROTIK RBSXTG- 5HPacD-SA SXT SA5 ac CPE 5GHz 1x RJ45 1000Mb/s 1x USB Antenna

Model: RBSXTG-5HPACD-SA

Manufacturer: MIKROTIK

EAN: 4752224004499

Product Code: 1301289

R3,104

The new AC standard is here, with up to 866Mbit over the air data rate, 256-QAM modulation, and 80MHz channels. 802.11a/n/ac opens up new possibilities and speeds never possible before. The SXT ac is a new member in our 802.11ac product lineup, currently two models are available ? with regular 28 degree antenna, and the SA model with a 90 wide beam - width sector antenna. Also support 802.11a/n standard, Nstreme and Nv2 protocols and are compatible with all legacy RouterBOARD devices. Both devices come with Gigabit Ethernet. New products are backwards compatible - for example, you can replace your 5GHz 802.11a/n legacy Access Point with new 802.11ac product and your existing customers will still be able to connect to it.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
