

TARGUS USB-C Dual HDMI 4K Docking Station

Model: DOCK427GL

Manufacturer: TARGUS

EAN: 5063194003481

Product Code: 1301292

R3,254

The Targus DOCK427GL docking station offers versatile connectivity options to enhance productivity. With multiple interfaces including HDMI and USB 3.2 Gen 2, it provides seamless integration with various devices. The docking station supports dual display setups at a maximum resolution of 4K with a refresh rate of 60 Hz, making it suitable for both work and entertainment. Its robust aluminum housing and lightweight design make it durable and easy to transport, while the inclusion of 75% recycled plastic aligns with eco-friendly practices. Equipped with USB Power Delivery up to 140 W, this docking station ensures efficient power management and fast charging for compatible devices. The multi-stream transport (MST) feature enhances its capabilities, allowing users to connect multiple displays without sacrificing performance. The Targus DOCK427GL is designed to meet the needs of modern professionals, providing a dependable and flexible docking solution.
