

StreetGrip Telesin GoPro Hero 9-13 kit with cage

Model: S6-FMS-26-TGP

Manufacturer: TELESIN

EAN: 6974944466052

Product Code: 1301488

R2,402

StreetGrip Telesin GoPro Hero 9-13 kit with cage

Created with GoPro Hero 9-13 camera owners in mind, the StreetGrip Telesin kit is an all-in-one solution for creators that combines an ergonomic, adjustable handle with a comfortable grip and the patented Seesaw Shutter trigger for capturing shots instantly. The metal cage provides rugged protection and full button access, while integrated TF card slots (TransFlash, used for mobile storage) and quick access to the battery ensure uninterrupted operation. Two cold shoe mounts allow for mounting accessories such as a microphone or flash, and a magnetic quick-mount system allows for efficient scene changes. The entire unit is made with CNC (Computerized Numerical Control, a technology that relies on computer-controlled machinery for precise, automated processing of materials) aluminum for durability, comfortable use and complete freedom of framing in all conditions.

Always be ready to go

The patented Seesaw Shutter allows for instant shooting - a gentle touch is all it takes to capture the perfect moment. With a built-in, slide-out TF card slot and quick battery replacement, your gear is always ready to go - no downtime, no compromise.

Freedom of framing and comfort of use

The ergonomic, angle-adjustable handle allows comfortable filming in any position - both horizontally and vertically. Thanks to CNC technology and aircraft-grade aluminum, the grip is not only durable, but also fits perfectly in the hand.

Professional expansion in one frame

The metal cage that fits GoPro Hero 9-13 cameras is designed for maximum functionality. Two cold shoe mounts allow for quick mounting of a microphone, LED (Light Emitting Diode) lamp or monitor, and the magnetic mounting system allows for instant scene changes without disassembly.

Reliability and full protection

The kit's design guarantees full access to all camera buttons and connectors, eliminating the risk of scratches or unwanted interference. It is a solution designed for intensive use - both in city traffic and during dynamic sports shots. Telesin StreetGrip is your partner in creating dynamic, exciting and perfectly framed shots.

Included

- Metal cage
- Metal cross button
- Metal handle
- Wrist strap
- T-type keys ×2
- ARRI positioning pins ×4
- User manual
