Flytec V802 PRO 12000mah bait boat (black)

Flytec V802 PRO is a professional bait boat, designed for demanding anglers. It features four independent compartments with a total payload capacity of 3 kg and dual antennas. Support for as many as 160 GPS points ensures maximum precision in baiting and reliability even on large bodies of water. Robust construction made of waterproof ABS, powerful motors and modern safety systems make it an indispensable tool during long sittings. The kit includes a remote control.

Four independent chambers for groundbait

The boat offers as many as 4 separate silos, which allow you to transport and dump up to 3 kg of bait. Thanks to the independent control of each chamber, you can freely plan and implement baiting in several places at the same time. The chambers are perfect for different types of mixes - from corn grains to pellets to loose bait.

Precise satellite navigation

The V802 PRO supports multiple positioning systems - GPS, Beidou, GLONASS, Galileo, QZSS and G1SBAS, guaranteeing accuracy of up to 1 meter. You can save as many as 160 GPS points to always return to the exact same locations. The auto return function makes the boat return to the starting point by itself in case of low charge, loss of signal or exceeding the 500m limit.

Powerful propulsion and stability

Two high-powered 390 motors, powered by 10A, ensure stable propulsion and longevity. The propellers are equipped with anti-tangle guards to protect against seaweed and other obstacles. The built-in gyroscope automatically corrects course, so the boat sails straight even in wind, waves and full load.

Long runtime on the water

The boat operates with a 12,000 mAh 7.4V lithium battery, which provides up to about 4 hours of continuous operation. The capacious battery compartment also allows you to install a second battery to extend the operating time and let you use the boat even during multi-hour sittings.

Intuitive remote control with LCD display

The Flytec V802 PRO boat is controlled by a remote control with a backlit LCD screen. The device allows you to conveniently operate all four bait chambers, control lighting and use stored GPS points. The boat offers the ability to personalize fishing points and switch freely between saved locations. The electronic fence function prevents swimming beyond a safe distance of 500 meters, and the automatic return to the starting point guarantees peace of mind in case of signal loss or low battery.

Stable design

The hull of the Flytec V802 PRO is made of durable ABS plastic and is completely waterproof, ensuring safe use even on rough water. The boat can withstand winds up to 5 degrees, and its seamless construction protects electronics from moisture. A hook located in the rear allows for easy attachment of a fishfinder or a set of hooks for added functionality when fishing. The boat is

equipped with a bright, waterproof LED headlight up front and rear lights in blue and red. This makes the boat highly visible after dark, in fog and in the rain. The taillight also serves as a signaling function, informing you of the operation status of the unit.

Included:

- Bait boat
- Remote control
- 7.4V 12,000 mAh lithium battery pack
- USB charger
- Antenna x2
- Control lever for remote control x2
- Drive screw x2
- Mounting screw
- Transport cable
- User manual

Manufacturer	Flytec
Model	V802 PRO black 12000
Load capacity of the bait	3 kg
Motor	390 electric
Battery	7.4V 12 000 mAh
Operating time	4 hrs.
Charging time	8 hrs.
Control range	up to 500 m
Dimensions of the boat	52.7 × 26.4 × 50 cm
Weight	2219 g
Material	ABS

Remote control power supply 4 × AA battery (not included)
