Product Code: 1301945

R3,120

The NESCAFÉ® Dolce Gusto® Genio S Plus Automatic Capsule Machine in Black offers you some interesting features:

- Espresso Boost mode, the little classic now tastes even more intense. How it works? Before brewing, the coffee is pre-moistened and thus develops a stronger aroma during extraction.
- A multi-stage temperature control is integrated in the "Plus" model. So you can enjoy your coffee from warm to very hot according to your wishes.
- For iced coffees there is also the "room temperature" setting.
