

MSI Cubi NUC AI+ 3MG- 003BEU Intel Core Ultra 9 386H Wifi 7 120W PSU

Model: CUBI NUC AI+ 3MG-003BEU

Manufacturer: MSI

Product Code: 1302296

R14,061

The MSI Cubi NUC AI+ 3MG is designed for high-performance computing in a compact form factor. This mini PC features a powerful Intel Core Ultra 9 processor with 16 cores and a maximum turbo speed of 4.9 GHz, suitable for both professional and everyday tasks. With an Intel AI Boost Neural Processor Unit, it excels in artificial intelligence tasks, providing up to 50 TOPS for NPU performance and 40 TOPS for GPU performance. The device is equipped with a fingerprint reader for enhanced security and comes prepared for modern connectivity needs with multiple USB ports, including USB-C 3.2 Gen 2 and Thunderbolt 4, along with 2.5 Gigabit Ethernet ports for fast network access. The MSI Cubi NUC AI+ 3MG supports advanced wireless standards, including Wi-Fi 6 and Wi-Fi 7, as well as Bluetooth 5.4 for reliable connectivity. Its customizable design features two empty RAM slots, allowing users to expand memory as needed. This mini PC also supports multiple video outputs, including HDMI, catering to various display requirements. Whether creating content, running

simulations, or working from home, the MSI Cubi NUC AI+ 3MG offers flexibility and performance to
