Manufacturer: SAMSUNG

EAN: 8806094511406

Product Code: 1302992

R4,572

24-bit Hi-Fi audio

Every note sounds like the real thing because clear audio starts at the source with your favorite Samsung Galaxy device. The updated Samsung Seamless Codec encodes the full 24-bit audio to decode on the Galaxy Buds2 Pro, maintaining that same 24-bit high-quality sound.

Active Noise Canceling (ANC) is better than ever.

With 3 high SNR (Signal-to-Noise Ratio) microphones, Galaxy Buds2 Pro track and eliminate more outside sound — even soft sounds like wind.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Switching to in-person conversations is easy with Voice Detect.

Simply start talking and Voice Detect will turn off ANC and activate Ambient sound — allowing you to clearly hear the conversation without removing your Buds2 Pro.

Hear it like you're there

With Intelligent 360 Audio, the sound feels more realistic. The 360 Audio with Direct Multi-channel (5.1ch / 7.1ch / Dolby Atmos) and Enhanced Head Tracking make every movement stay in sync — creating an immersive experience. 360 Audio can even pinpoint the direction of the sound as you move your head, giving you the spatial experience.

Pop open and tab in

Galaxy Buds2 Pro will automatically pop up on your Samsung Galaxy devices and are ready to connect with a tap. As simple as that.

Auto Switch on Samsung Galaxy Buds2 Pro intelligently detects mobile activity and seamlessly shifts its connection to your Samsung Galaxy phone, tablet and watch.

Switching to answer the phone works even when you're connected to a Samsung TV. Once the Galaxy Buds2 Pro are connected to the Samsung TV via Bluetooth, there is no need to take the earbuds out to answer the phone. Incoming calls can be answered simply by tapping the Galaxy Buds2 Pro twice.

Keep track of your buds

Worried about losing your Galaxy Buds2 Pro? Don't. With SmartThings Find, you can trace your coveted Galaxy Buds2 Pro with the location detection feature. You can even do it with or without the case.

Walk away from your Galaxy Buds2 Pro and the integrated alarm is ready to let you know — your phone will send you a notification so that you don't accidentally leave them behind.

In your comfort zone

We redesigned the earbuds to be 15% smaller than the Galaxy Buds Pro to fit snugly in your ear.

Enjoy a comfortable fit, thanks to the ergonomically designed earbuds. Enhanced wind flow
