EcoFlow RAPID Pro 100W mains charger, 2xUSB-C, 1xUSB-A, GaN

The EcoFlow RAPID Pro 100W is an extremely powerful yet handy mains charger that allows you to quickly and safely charge up to three devices simultaneously. It boasts a maximum output power of 100 watts and uses GaN (Gallium Nitride, a semiconductor technology for efficient charging). It is also equipped with three ports - two USB-C (Universal Serial Bus type C, a universal connector for data and power) and one USB-A (Universal Serial Bus type A). Now one outlet is enough to power a whole set of devices!

Ultra-fast charging with X-Stream technology

With up to 100 watts of power, the RAPID Pro charger enables ultra-fast charging - for example, a MacBook Pro 13" M4 can be fully charged in less than two hours. It's a solution designed for

maximum efficiency - it will work wherever time is of the essence!

Three ports, full control

The RAPID Pro 100W offers two USB-C ports and one USB-A connector, allowing you to charge three devices simultaneously without the need for additional adapters. Whether you're at the office, at home, or on the go - now you only need one compact charger!

State-of-the-art GaN technology

The charger uses advanced GaN technology to achieve high power with minimal dimensions. It also provides higher energy efficiency, less heating and longer device life.

Designed with safety in mind

The RAPID Pro 100W is equipped with the X-Guard protection system with X-Core 3.0 chip, which makes charging not only fast, but also safe. A built-in sensor monitors the temperature, minimizing the risk of overheating. In addition, the charger is very durable, and its housing meets VO fire resistance standards. It will serve you perfectly for many years!
