Model: FW-SH-17WAN

Manufacturer: FREEWELL

EAN: 4897143171997

Product Code: 1303780

R3,257

Freewell wide-angle lens (16 mm with 17 mm mount)

The Freewell 16 mm wide-angle lens with 17 mm mount significantly expands the possibilities of photography and filming with a smartphone. It provides a wide field of view of 105°, allowing you to easily capture vast landscapes, architecture, or group photos. The design has been adapted for mounting in a 17 mm thread found in smartphone cases or rigs, ensuring a stable and secure connection to the main 1x camera. An additional advantage is the 58 mm filter thread, which allows the use of photographic filters, expanding your creative possibilities when recording and photographing.

105° wide angle for more impressive shots

With a focal length equivalent to 16 mm and a wide 105° field of view, the lens allows you to capture a much larger portion of the scene than a standard smartphone camera. It is ideal for landscape photography, architecture, and vlogging. The wide frame also allows you to comfortably capture group photos or dynamic shots in tight spaces without having to move away from the subject.

Precise focusing at close range

The accessory offers the ability to focus from a distance of approximately 0.5 m. This makes it suitable for both wide frames and more detailed shots taken from a short distance. This solution increases flexibility and allows you to freely switch between landscape shots and more detailed frames.

Clear and contrasty image

The Nano Fusion coating reduces reflections and light flares while improving light transmission. In practice, this translates into a clearer, more contrasty image and better recording quality in various lighting conditions. As a result, photos and videos retain their natural colors and high detail.

Compatibility with 58 mm filters

The front of the lens is equipped with a 58 mm filter thread, which allows the use of a wide range of photographic filters. This allows you to easily adjust the character of the image to the lighting conditions or recording style using ND, CPL, or other compatible accessories.

Included:

- Freewell 16 mm wide-angle lens
- Lens case
- Cleaning cloth

Manufacturer	Freewell
