The Lanberg LCU5-11CU-0305-S bulk network cable is designed to meet various networking needs with efficiency. Featuring pure copper conductors, this cable provides excellent signal quality and reliable performance. The cable is constructed with HDPE conductor insulation and a durable PVC jacket, ensuring protection under various environmental conditions. With a tested frequency of up to 100 MHz and an impedance of 100 ohm, this CAT 5e cable ensures high-speed data transmission. It is engineered to operate effectively in a temperature range of -20°C to 75°C, making it suitable for a wide range of applications. The addition of length indication and a test fluke pass feature contributes to its usability, allowing easy installation and verification of performance.
