

STEERING WHEEL G920/941- 000123 LOGITECH

Model: 941-000123

Manufacturer: LOGITECH

EAN: 5099206058996

Product Code: 1305754

R4,950

G920 Driving Force is the definitive sim racing wheel for the latest Xbox Series X|S, Xbox One™ and PC titles. With realistic dual-motor force feedback and helical gearing for quiet, smooth steering. On-wheel controls and paddle shifters are easy to access so you can make crisp, precise gear transitions. The separate pedal unit gives you natural, responsive control, with a nonlinear brake pedal that mimics the feel of high-performance vehicles. Driving Force is built for comfort and durability with hand-stitched leather and stainless steel components. Built-in clamps and bolt points keeps Driving Force mounted securely to a table or racing rig, minimizing shifting or wobbling during aggressive maneuvers.

- Immersive Gaming Experience: Perfect for Xbox and PC gaming titles, the Driving Force simulates the feeling of driving a real car with precision steering and pressure-sensitive pedals

- Premium Control: The Driving Force feedback racing wheel provides a detailed simulation of driving a real car, with helical gearing delivering smooth, quiet steering and a hand-stitched leather cover
- Customisable Pedals: These pressure-sensitive nonlinear brake pedals provide a responsive, accurate braking feel on a sturdy base - with adjustable pedal faces for finer control
- 900-Degree Rotation: Lock-to-lock rotation of the Driving Force means you can turn the wheel around two and a half times, hand over hand on wide turns - just like a real F1 race car
- Up Your Game: Take your racing simulation to the next level with Driving Force accessories like the Driving Force Shifter or desk and rig mounts
