PGYTECH Caplock MantisPod Power tripod for GoPro Hero

Meet the PGYTECH Caplock MantisPod Power - a versatile recording tool that combines functionality, ergonomic design and reliability. The built-in 5000 mAh battery allows you to use the tripod and charge the attached device at the same time. A detachable remote control provides convenient operation, and a 360° rotation function enhances recording capabilities. In addition, Mantis mode allows you to attach the tripod to a surface of your choice for creative shots. It's the perfect tool for vlogging, creating content for social media or documenting important moments.

Creativity from a new perspective

The tripod is distinguished by the innovative Mantis mode hook, which allows you to hang the device almost anywhere and ensures stability thanks to its 3 legs. This opens up a whole new range of possibilities for capturing shots - from unusual frames in difficult conditions to dynamic photos and video in the open air. Just hang the device on a railing, monitor or other available surface to gain new perspectives and unique frames. You can also use a tripod as a tripod, selfie stick or mount.

360° rotation for complete recording freedom

Thanks to the articulating ball design, you can enjoy full flexibility in adjusting the position of your camera or smartphone. The 360° rotation allows you to switch seamlessly between horizontal and vertical shots without having to dismantle your equipment. This solution makes the tripod perfect for both video recording and vertical content creation, ideal for social media.

Convenient operation with intuitive remote control

The tripod is equipped with a remote control. The magnetic mount allows for easy storage and quick access to the remote control - just attach it to the tripod to always have it at hand. It allows you to conveniently control basic functions, such as taking pictures, recording video, or changing the mode. Its range is 10 m, and a light indicator will inform you about the product's working status.

Instant mounting thanks to the CapLock system

PGYTECH's patented CapLock system is a guarantee of fast and easy installation. Thanks to it, installation of the equipment literally takes a moment. In addition, the system features a double locking mechanism that ensures maximum stability and security of the mounted device. Whether you are using a sports camera, smartphone or other equipment, you can be sure that the tripod will hold it in the right position. You can also use it with a handlebar mount, mirror mount, suction cup mount, neck mount, LED light, etc. It will be perfect for bike trips, car trips, water sports and many other activities.

Powerful battery - safety of use

The tripod is equipped with a high-quality 21700 lithium cell with a capacity of 5000 mAh, which ensures reliable power supply during operation. This allows you to charge your camera up to 2.5

times, which significantly increases the recording time and allows you to capture more memorable moments. In addition, there is an advanced battery management system (BMS) that offers full protection for your device. Features such as protection against overcharging, discharging, overloading, overvoltage and short circuit ensure safe and stable operation under all conditions. The battery is also protected against high and low temperatures, so you can use the device in a variety of weather conditions.

Included

- tripod
- ¼" adapter
- S4 wrench
- wrist strap
- instruction manual
