

Darkflash DH360D v2 CPU Cooler (Black)

Model: DH360D Black v2

Manufacturer: DARKFLASH

EAN: 4711527002144

Product Code: 1307531

R2,510

DarkFlash DH360D v2 CPU Cooler (Black)

The DarkFlash DH360D V2 is an advanced 360mm AIO water cooling system that combines high performance with exceptional aesthetics. It features three 120mm fans with ARGB lighting, a circular display on the water block, and a high-performance pump with a copper base that effectively dissipates heat from the CPU. An aluminum heatsink with an optimized design, support for Intel and AMD processors, and low noise levels make this model ideal for both gaming PCs and high-performance workstations.

Round display with magnetic mounting

One of the most distinctive features of the DH360D V2 is the color display located on the water block. It allows you to monitor computer operating parameters, such as CPU temperature. The magnetic design makes it easy to mount and position the screen, so you can easily adjust it to the cooling configuration inside the case.

Efficient cooling for demanding processors

The system is designed to effectively dissipate heat from modern CPUs. The copper base of the water block quickly absorbs thermal energy, while the 360 mm aluminum radiator with densely spaced fins increases the heat exchange surface area. The system is complemented by durable, flexible LR and EPDM tubing, which is resistant to high temperatures and pressure and additionally eliminates the risk of leaks. As a result, the computer maintains stable temperatures even during intense gaming, rendering, and other demanding tasks.

Three ARGB fans with intelligent PWM control

The cooling system is equipped with three 120 mm fans featuring fluid dynamic bearings and 8 anti-vibration pads, ensuring low noise levels (up to approximately 30 dB) and a long service life (MTTF of 40,000 hours). They also feature a maximum airflow of 59.1 CFM and a PWM function that automatically adjusts their speed based on CPU temperature (from 800 to 2000 RPM). Added to this is ARGB lighting, which gives the computer a striking appearance.

Synchronization with popular ARGB systems

The cooler supports a 5V 3-pin ARGB connector and works with popular motherboard lighting control systems such as Asus Aura Sync, RGB Fusion 2.0, MSI Mystic Light Sync, and ASRock Polychrome Sync. This allows you to create consistent lighting effects and customize your computer's appearance to your preferences.

Wide compatibility with Intel and AMD

The DarkFlash DH360D V2 ARGB is compatible with popular Intel (including LGA2011, 2011-V3, 2066, 1366, 115X, 1700) and AMD (including FM1, FM2, FM2+, AM2, AM2+, AM3, AM3+, AM4+, AM5) sockets, making it a versatile choice for new and upgraded computers. The included mounting accessories and thermal paste allow for quick and easy setup. The cooler also features a built-in PWM hub (with 3 ports) and supports both 3-pin and 4-pin connections, simplifying installation.

- Heatsink and pump
- 120 mm fan x3
- User manual
- Set of mounting screws
- Accessory kit
- Thermal paste

Manufacturer	Darkflash
Model	DH360D
Water block dimensions	97.2 x 67.5 x 68.55 mm
Pump speed	3200 ±10% RPM
Rated voltage	DC 12 V
Pump noise level	23 dBA ±10% (1 m)
Heatsink dimensions	392 x 120 x 27 mm
Hose length	450 mm
Fan dimensions	120 x 120 x 25 mm
Fan speed	800-2000 ±10% RPM
Airflow	59.1 CFM
Static pressure	1.73 mmH2O
Fan noise level	30 dBA ±10% (1 m)
Bearing	Hydraulic
Fan MTTF	Up to 40,000 hours
Monitor	Segment display
Intel compatibility	LGA2011, 2011-V3, 2066, 1366, 115X, 1700
AMD compatibility	FM1, FM2, FM2+, AM2, AM2+, AM3, AM3+, AM4+, AM5
