ZoneSlide

Take control of your cooking with 4 individual sliders, offering intuitive, precise, and effortless heat adjustment for each zone. No more guessing, only perfect temperature with every touch.

AutoProgrammes

Induction hob's smart sensors and algorithms monitor cookware temperature, and by precisely adjusting the power, our Auto programs Warm, Melt, and Boil functions deliver exceptional results.

FlexArea

The induction hob with two connecting zones simplifies cooking in large-sized pots. Two separate cooking zones are bridged to form one with just a simple touch. Perfect for preparing bigger pieces of food and sides simultaneously.

StableHeat

Unlock a new level of cooking precision with our innovative, patented technology. Our unique

software and hardware system delivers uniform heating through rapid, imperceptible power cycling, providing a consistent cooking experience free from temperature or power variations. Achieve perfect results with ease.

InstaDetect

Hardware solution ensures every cooking zone instantly recognizes your cookware in super fast time - 0.2 seconds. No matter how quickly you move pots or pans, our hob effortlessly adapts, providing seamless and silent cooking control.

PowerShift

Cook more efficiently and worry-free with a new function that allows simultaneous transfer of the pan, time and power level to different zones of the induction hob. Move the pot and make room for another one, using the zone you need.

BigZone 23 cm

The new 23 cm BigZone on Gorenje hobs is the perfect solution for the biggest pans. Positioned in the front, this zone allows for constant attention while cooking and accommodates the average most-used pot size of 23 cm. This prevents cold areas on the edge of the pan and ensures delicious meals every time. Say goodbye to cooking struggles with the new extra big zone on Gorenje hobs, positioned for maximum frequency and purpose of use.

ConnectLife

Stay in control with advanced remote monitoring. Access smart cooking programs, recipes, and precision settings for seamless integration with your smart kitchen.

EasyInstall

Installing your new hob has never been easier! With a pre-installed gasket seal, there's no need for a frontal gap, making setup quick and hassle-free. Enjoy a sleek, secure fit and effortless use from day one.

QuickBoost

Boost power instantly before cooking. Hold your selected power level for 3 seconds, and the hob briefly switches to max power before returning to your setting.

Recall

No worries if your hob turns off. Simply switch it back on, press pause, and restore all settings including timer, power levels, and cooking zones for hassle-free cooking.

StopGo

Need to clean your hob while cooking? Hold the Pause button to save all settings. After cleaning, press Pause again to resume cooking with timer, power levels, and cooking zones unchanged. Clean with confidence and cook without interruptions.

Ultra slim installation

Renovating or upgrading your kitchen? This induction hob is designed to fit even slim worktops—down to 28 mm thick—so you get a clean, modern look and easier installation, even in compact or minimalist countertop setups.
