Save weight in your gadget bag yet still achieve razor sharp results with the compact RF 14-35mm F4L IS USM ultra-wide zoom lens. It's a high-performance RF lens appealing to those who seek compactness over fast apertures, yet still demand exceptional L-series performance, stunning image quality and superb weather-resistance. With a constant F4 aperture, silent autofocus, 5.5-stop image stabilisation and a hugely impressive 14-35mm focal length incorporating aspherical and UD elements for crystal clear results, it's a great lens for landscapes, architecture, interiors, and smooth, sharp video.
