

Cycplus AS2 PRO mini electric pump

Model: AS2 PRO

Manufacturer: CYCPLUS

EAN: 6976297860839

Product Code: 1308654

R2,731

Cycplus AS2 PRO mini electric pump

Don't let a lack of air in the wheel thwart your plans! The Cycplus AS2 PRO is a compact electric bicycle pump with a maximum pressure of 120 PSI, a weight of just 120 g and dimensions of 70 × 49 × 28 mm. It stands out for its accuracy of ± 1 PSI and offers an automatic stop function, allowing you to quickly and effortlessly inflate the tire to the exact set value. The powerful 420 mAh battery allows for multiple inflations on a single charge (up to 2x 110 PSI or 4x 80 PSI), and the built-in LED screen makes it easy to operate.

Fast pumping and high performance

The use of patented CYCLUS™ design technology and an improved brushless motor translates into noticeably higher performance. For example, the inflator can inflate a 700C25 tire to 80 PSI in about 50 seconds, and to 110 PSI in about 90 seconds. What's more, the device's maximum pressure is as high as 120 PSI. As a result, it can easily handle both narrow road tires and wider gravel or MTB tires.

Precision and control

The built-in gauge with an accuracy of ± 1 PSI allows you to set the target pressure very precisely. When it is reached, the inflator automatically stops operation, eliminating the risk of overinflating the tire. All the most important information, such as the current pressure or battery level, is displayed in real time on the easy-to-read LED screen, making the operation of the device intuitive and convenient.

It will prove itself in various situations

The AS2 PRO is distinguished by a clever nozzle design that allows quick switching between Presta and Schrader valves - without the need for additional adapters. The kit also includes a flexible hose that makes it easy to pump smaller diameter tires. All this makes the pump great for everyday use.

Lightweight, durable design

The housing made of durable aluminum alloy ensures durability and resistance to damage while keeping the weight very low. The pump weighs only 120 g and is extremely compact, so you can always have it on hand. You will also find a silicone case that improves thermal insulation and a special cover that protects the device from rain and moisture. This makes the AS2 PRO perfect for use in changing weather conditions.

Fast charging via USB-C

The pump is charged via a USB-C port and reaches 100% energy in just about 30 minutes. The balanced charging technology used extends the life of the battery, providing more than 200 cycles with less than 10% capacity degradation. This allows the device to be ready for action whenever you need it!

Included

- Pump x1
- Presta valve converter x1
- Silicone sleeve x1

- Hose x1
- Waterproof pouch x1
- Sealing element x1
- USB-C to USB-C cable x1
- Ball pump needle x1

Manufacturer	Cycplus
Model	AS2 Pro
Battery capacity	420 mAh
Battery voltage	7,4 V
Energy	3.11 Wh
Charging port	USB-C
Charging time	Approx. 30 min

Charging parameters 5 V / 1.5 A

Current intensity	2,5-7,5 A
Maximum pressure	120 PSI
Accuracy	±1 PSI
Pumping speed	120 PSI in approximately 2 min
Dimensions	70 × 49 × 28 mm
Weight	120 g
