outstanding performance while consuming less power

Learn, Create, and Stream Anywhere

The Intel® Core™ N-series processor supports improved graphics processing so you can create digital content and stream videos at the same time without slowing down

Multitask with Triple Display Support

Unleash the power of multitasking in a compact 0.56L chassis, supporting up to three 4K displays with reduced latency, minimized power consumption, and smoother data transfer.

Versatile, Lightweight Design

The lightweight 0.56-liter chassis blends well in any setting and can be VESA mounted on a wall or on the back of a monitor, saving space at home or in the office

Compact Size, Abundant I/O

NUC 14 Essential offers seamless connectivity with a host of I/O ports on its front and rear panels, supporting up to three 4K displays and offering high-speed networking performance. The front panel features a headset jack, one USB-C® (10 Gbps) and a USB Type-A (10 Gbps) port; while the rear includes two USB Type-A (10 Gbps) ports, one USB 2.0, one USB-C with DisplayPort™ (10 Gbps), one DisplayPort, HDMI™, and one LAN port.

Target Usage

Powered by the latest Intel® Core™ N-Series processor, NUC 14 Essential strikes a harmonious balance between energy consumption and efficiency, at a reasonable price. From office productivity to supporting digital signage, it offers outstanding versatility and can be deployed across diverse industries.
