

Ernitec Managed Layer 2, 16 Gigabit ports, 2 Gigabit SFP ports

Model: ELECTRA-M216/2

Manufacturer: ERNITEC

EAN: 5715063037058

Product Code: 1310721

R4,825

Ernitec 16-Port Managed PoE Switch

Optimize Your Network with the Ernitec L2 Management PoE Gigabit Ethernet Switch

The Ernitec 16-Port Managed PoE Switch is designed to deliver exceptional performance and flexibility, making it the perfect networking solution for small and medium-sized enterprises.

With full-gigabit access and uplink ports, this switch combines high cost-effectiveness with robust security features.

Key Features:

Flexible VLAN Division: Enhance your network's security and stability by segmenting access between different departments.

By creating distinct VLANs, you can isolate broadcast domains, preventing virus infections from spreading and ensuring a more reliable network environment.

Advanced QoS Capabilities: Seamlessly integrate voice, data, and video services over a single traffic

stream.

Utilizing parameters such as IP or MAC addresses and TCP/UDP port numbers, our switch guarantees clear and smooth communication.

The dedicated Voice VLAN support ensures optimal performance for voice applications, minimizing disruptions.

Reliable Protection: Our switch supports STP, RSTP, and MSTP Spanning Tree Protocols to eliminate layer 2 loops and provide link backup.

Additionally, port aggregation increases link bandwidth, enabling load balancing and enhancing overall link reliability.

User-Friendly Management: Designed for ease of use, the switch features an intuitive web-based Graphical User Interface (GUI), industry-standard Command Line Interface (CLI), and supports SNMP (v1/v2c/v3) and RMON.

This allows for efficient monitoring and management, providing valuable status updates and alerts for any abnormal events.

With its comprehensive security features, flexible management options, and cost-effective design, the Ernitec 16-Port Managed PoE Switch is your go-to solution for a secure and efficient networking experience.
